RISK FACTORS

Investing in the AAML Unit Fund (hereafter the Fund) involves certain risks that investors should carefully consider before investing in the Fund. Investment in the capital market and in the Fund bears certain risks that are normally associated with making investments in securities including loss of principal amount invested. There can be no assurance that the Fund will achieve its investment objectives. The Fund value can be volatile and no assurance can be given that investors will receive the amount originally invested. When investing in the Fund, investors should carefully consider the risk factors outlined below, which are not necessarily exhaustive or mutually exclusive:

1. General: There is no assurance that the Fund will be able to meet its investment objective and investors could potentially incur losses, including loss of principal when investing in the Fund. Investment in the Fund is not guaranteed by any Government Agency, the Sponsor or the AMC. Mutual funds and securities investments are subject to market risks and there can be no assurance or guarantee that the Fund's objectives will be achieved. As with any investment in securities, the Net Asset Value of the Fund may go up or down depending on the various factors and forces affecting the capital markets and Money Markets. Past performance of the Sponsors and their affiliates and the AMC do not indicate the future performance of the Fund. Investors should study this Offer Document carefully before investing.

2. External Risk Factor: Performance of the Fund is substantially dependent on the macro-economic situation and capital market as well as money market of Bangladesh. Political and social instability may have an adverse effect on the value of the Fund's assets. Adverse natural calamities may impact the performance of the Fund.

3. Market Risk: The Bangladesh capital market is highly volatile and mutual fund prices and prices of securities can fluctuate significantly. The Fund may lose its value or incur a sizable loss on its investments due to such market volatility. Stock market trends indicate that prices of majority of all the listed securities move in unpredictable direction which may affect the value of the Fund. Furthermore, there is no guarantee that the market prices of the units of the Fund will fully reflect their underlying Net Asset Values.

4. Concentration Risk: Due to a limited number of listed securities in both the DSE and CSE, it may be difficult to invest the Fund's assets in a widely diversified portfolio as and when required to do so. Due to a very thin secondary bond/money market in Bangladesh, it would be difficult for the Fund Manager to swap between asset classes, if and when required. Limited options in the money market instruments will narrow the opportunity of short term or temporary investments of the Fund which may adversely impact the returns.

5. Dividend Risk: Despite careful investment selection of companies in the Fund, if the companies fail to provide the expected dividend or fail to disburse the dividends declared in a timely manner, this will impact the income of the Fund and the overall return of the Fund.

6. Underlying Liquidity Risk: Investment in non-listed equity securities by the Fund may involve liquidity risk. In addition, market conditions and investment allocation may have an impact on the ability to sell securities during periods of market volatility, bond/money market while somewhat less liquid, lack a well-developed secondary market, which may restrict the selling ability of the Fund and may lead to the Fund incurring losses till the security is finally sold. While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges and may lead to the Fund incurring losses till the security is finally sold.

7. Investment Strategy Risk: Since the Fund will have an actively managed investment portfolio; the Fund is subject to management strategy risk. Although the AMC will apply its investment process and risk minimization techniques while making investment decisions for the Fund, there can be no guarantee that such process and techniques will produce the desired outcome.

8. Credit Risk: Since the Fund will seek to also invest as per the সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১, in both equity and fixed income securities; the credit risk of the fixed income issuers is also associated with the Fund. Investment in fixed income securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.

9. Interest Rate Risk: The Net Asset Value (NAV) of the Fund, to the extent invested in Debt and Money Market securities, will be affected by changes in the general level of interest rates. The NAV of the Fund is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates. In addition, zero coupon securities do not provide periodic interest payments to the holder of the security; these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio.

10. Issuer Risk: In addition to market and price risk, value of an individual security can, in addition, be subject to factors unique or specific to the issuer, including but not limited to management malfeasance, lack of accounting transparency, management performance, management decision to take financial leverage. Such risk can develop in an unpredictable fashion and can only be partially mitigated, and sometimes not at all, through research or due diligence. To the degree that the Fund is exposed to a security whose value declines due to issuer risk, the Fund's value may be impaired.

The Mutual Fund is not guaranteeing or assuring any returns.

1.8 Systematic Investment Plan (SIP)

A Systematic Investment Plan or SIP is a smart and hassle free mode for investing money in mutual funds. SIP allows an investor to invest a certain pre-determined amount at a regular interval (monthly, quarterly, yearly etc.). A SIP is a planned approach towards investments and helps inculcate the habit of saving and building wealth for the future.

Buy and Surrender SIP Process:

An investor can invest through SIP either by auto debit system provided against investor's Bank Account or by providing monthly predetermined cheques via selling agents at a regular interval (monthly, quarterly, yearly etc.). Investor must have a BO Account. Investor will get SIP units in their BO Accounts based on a discount from ongoing Weekly Sale price of the fund.

It is advisable to continue SIP investments with a long-term perspective, there is no compulsion. Investors can discontinue the plan at any time. If an investor wants to terminate the SIP before two (2) years, 1% discount from the repurchase/ surrender price will be applicable on total accumulated invested amount on the date of cancellation of the scheme. After maturity of SIP, the investor can easily surrender through AMC or Selling Agents.

Benefits may be offered for Investors as such:

SIP encourages a disciplined investment. While invested through SIP, investor commits himself to save regularly. Different benefits may be offered as follows:

- **Flexibility:** Investor can start SIP with a very small amount that is 1000/2000/3000/4000/5000 or multiple of 1000/500. One can also increase/ decrease the amount being to be invested in regular fashion.
- **Flexible SIP Tenor:** The scheme will be offered for at least 2 years or any other period set by AMC. However, investor can set SIP scheme for 3 years/ 5 years/ 10 years. After this time period the individual scheme will be matured and may surrender or continue after maturity. If surrendered, no fees/charges will be charged on surrender and may also offer highest premium over the declared surrendered price.
- **No Minimum lot size:** under SIP, there will be no minimum lot size as like normal investors. Based on a discount from declared sales price per unit available, units will be credited to investor's account. However, any fraction amount remaining will be converted when it sums up to one unit. The fractional amount will be kept as liability of the fund in a separate account head.
- **Sale at discount and premium at Surrender:** SIP investor may buy units at a discount from weekly Sales Price offered to normal investor. In addition to that SIP investor can surrender at a premium of repurchase price offered to normal unit holders at maturity as per SIP brochure.
- **CIP option for the SIP investors:** SIP investors can choose either option of cash dividend or cumulative investment plan (CIP) or mix of both. If a SIP investor chooses CIP (i.e. Dividend reinvestment process) instead of cash dividend, they will also enjoy CIP units at a discount of prevailing Sales price used for CIP conversion. After CIP conversion, they will get dividend on total number of unit in the next year.

Detailed of SIP Scheme information will be provided in the Scheme Brochure in future.

CHAPTER 2: BACKGROUND

2.1 Preamble to Formation of AAML UNIT FUND

Open-end unit fund is a collective investment scheme which can issue and redeem shares (units) at any time. An investor will generally purchase shares (units) in the Fund directly from the Fund itself rather than from the existing shareholders. By investing in an open-end unit fund, the investors gain access to a thoroughly researched and professionally managed capital market portfolio, thereby increasing their diversity and reducing the overall risk associated with the capital market investments. Such funds allow the small investor to reap the benefits of a large diversified and professionally managed portfolio.

The AAML UNIT FUND will provide an investment alternative for the existing retail investors in the Bangladesh. It will also encourage new investors to join in and enjoy the returns of the capital market with minimal risks.

The parties to the Fund are, Assurance Asset Management Limited (AAML) as Sponsor and Asset Manager, Investment Corporation of Bangladesh (ICB) as the Trustee and BRAC Bank Ltd. as the Custodian of the Fund.

2.2 The Capital Market of Bangladesh

Bangladesh Capital Market consists of the Dhaka Stock Exchange (DSE) & the Chittagong Stock Exchange (CSE) which were incorporated in 1954 and 1995 respectively. The Bangladesh Securities and Exchange Commission (BSEC) supervises activities of the Bourses and its Members. The Capital Market of Bangladesh is still in the developing phase, in terms of quality of capital, quality and quantity of investable instruments, efficiency and regulatory strength.

After the Stock Market Crash of 2010, the Bangladesh capital market has witnessed a turbulent period for the next few years. The BSEC has taken a number of steps to restore investor confidence, including, but not limited to, the demutualization of the Bourses, introducing faster and more reliable trading platform, unveiling of a more sophisticated surveillance system, encouraging more public issues to increase market depth.

AAML has taken an initiative by introducing the AAML UNIT FUND for the benefit of investors from all walks of life. The idea is to help transform the capital market from a speculative hub to a savings hub.

2.3 Advantages of Investing in AAML UNIT FUND

Following are the advantages the investors of AAML UNIT FUND will enjoy:

- I. Diversification:** Diversification is often thought of as the key to smart investing. Well-conceived portfolio diversification often results in achieving better results. Diversified portfolio, to be developed for the Fund, will help in lowering investment risk of the investors, who will be able to minimize or even eliminate their individual exposure to company-specific risks.
- II. Professional Management:** The Fund will be managed by qualified professionals, who take investment decisions based on their continuous research of the economy, the market and the companies. The professionals at Assurance Asset Management Limited use a host of investment strategies while managing the investment keeping in mind the objective of the Fund.
- III. Less Emotional Stress:** Investment management often results in emotional stress for the individual who manages the investment. Trying to balance between personal and professional life and at the same time managing investment might have its impact on a person, who is not a professional in the field of investment management and ultimately result in emotional stress. On the other hand asset managers are the ones who specialize in investment management. Asset managers engage themselves in an organized and disciplined way of investment management based on relevant education, years of hands on experience and skills. Allowing the asset manager to take the responsibility of managing investment and dealing with it professionally can release investor from the emotional stress.
- IV. Trading at Close to NAV:** Price of the Units of the Fund will not be determined by demand and supply function, rather by Net Asset Value (NAV).

V. Cumulative Investment Plan (CIP): AAML UNIT FUND offers the investors to choose either to receive cash dividend or to allow the Fund manager, to reinvest their dividend in the market in lieu the investor will get equal values of units of cash dividend. This flexibility allows investors to choose a plan according to their preference.

VI. Transparent Operation & Extensive Disclosures: Formation, management and operation of AAML UNIT FUND adheres to সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১ and are monitored by the BSEC and the Trustee. The Fund will disclose relevant information to the Investors, Trustee, BSEC and the public as prescribed in the সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১.

2.4 Tax Advantage of investing in AAML UNIT FUND:

2.4.1 Tax advantage on Income: Income from a mutual fund or a unit fund up to Taka 25,000.00 (Twenty-Five Thousand) is exempted from tax under Income Tax Ordinance 1984.

2.4.2 Investment Tax credit: According to the current Income Tax Ordinance (ITO) 1984, section 44, amount of allowable investment is – actual investment or 25% of the total (taxable) income or Taka 15,000,000.00 whichever is less.

Tax rebate rate is from 15% to 10% as per following schedule:

Total Income	Rate of Tax Rebate
Up to BDT 10,00,000.00	15% of eligible amount.
From BDT 10,00,001.00 to BDT 30,00,000.00	a) BDT 250,000.00 of eligible amount at the rate of 15%. b) Remaining of the eligible amount at 12%.
Above BDT 30,00,000.00	a) BDT 250,000.00 of eligible amount at the rate of 15%. b) Next BDT 5,00,000.00 of eligible amount at the rate of 12%. c) Remaining of the eligible amount at 10%.

Example: An individual earning total annual income BDT 5,000,000.00 in a year may have allowed investment for tax rebate BDT 1,250,000.00 (BDT 5,000,000.00 multiplied by 25% allowed).

As this amount BDT 1,250,000.00 is lower than BDT 15,000,000.00, the person's eligible amount for tax rebate is BDT 1,250,000.00.

The individual will have total tax rebate calculated as under:

a) 1 st BDT 250,000.00 of eligible amount at the rate of 15%	= 37,500.00
b) Next BDT 5,00,000.00 of eligible amount at the rate of 12%.	= 60,000.00
c) Remaining of the eligible amount i.e. Next BDT 5,00,000.00 at 10%.	= 50,000.00
Total rebate	1,47,500.00

This investor can reduce tax liability by BDT 1,47,500.00 by investing in this fund.

This is a simple illustration. The amount can vary and will depend on individual circumstances. Also, please note that the tax rebates may change as per Government's decision in any year. Investors are advised to consult with tax advisor, if required.
